Mintel Facial Skin Care 2016

ProRenew Complex CLR™

Stimulation Of skin's self-renewal with Probiotic technology

INCI: *Lactococcus Ferment Lysate*

Use Level: 3 %

Effectively acts on the most important biological feature in aging skin, its ability to renew itself. The skin renewal processes are both accelerated and improved, promoting skin health.

Benefits: *Supported by numerous in vitro and in vivo studies.*

A probiotic anti-aging approach towards skin renewal • Induces production of key ingredients of skin quality and differentiation • Improves keratinocyte cohesion • Increases the production of antimicrobial peptides • Induces skin renewal and accelerates skin barrier recovery

ProBioBalance CLR™ NP

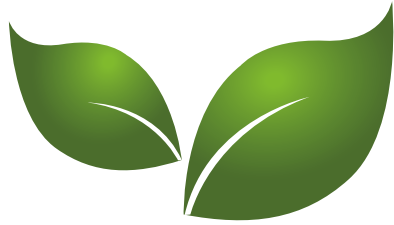

Protection Against Environmental Stress

INCI: *Water, Lactose, Milk Protein, Bifida Ferment Lysate*

Use Level: 2.0 - 5.0%

ProBioBalance CLR™ NP Consists of **probiotic** bifidobacteria disintegrated in a bioactive milk-based nutrient. In this way the skin gets optimal nutrients and regains its natural balance. This new active lowers the stress level in the skin, protects it against environmental stress, and stabilizes the immune system. It helps rebalance the skin and protect it from environmental stresses. This active gives the skin well-directed impulses in order to keep or regain a healthy balance from inside.
