

ZINIKA_100AS

- Product name: ZINIKA_100AS
- INCI: Zinc oxide, Triethoxycaprylsilane
- Mainly UVA Absorber
- The benefit
 - Primary particle size 100nm
 - Good coverage in make-up formulation
 - Oil dispersible
 - hydrophobic, good dispersibility
- Recommended level: Max. 25%

- Coverage in Dispersion (ZnO 60%)

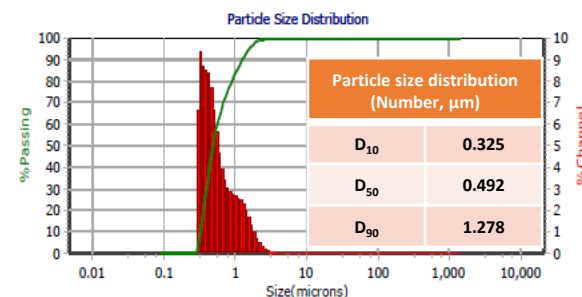

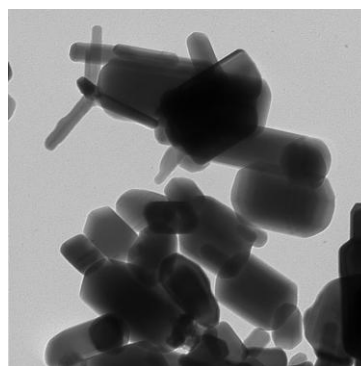

White index

101.80

87.09

→ Natural cover effect in make-up formulation.

- Non-nano Grade as a primary particle size

→ Non-nano Certificate : TEM, SEM, DLS
