

Amazia™

The violet soul of the rainforest

Natural Intelligence

Inspired by the rainforest's natural harmony Amazia™ is a cutting-edge ingredient for skin defense. It harnesses the biological intelligence of violacein, a protective shield for amphibians

Beauty Bioprospecting

Through Beauty Bioprospecting, Amazia™ transforms biodiversity into conscious skincare. Decoding molecules like Violacein bridges the gap between scientific precision and environmental respect

Amazia™ Edge

Rainforest Origin: Proprietary strain isolated directly from the heart of the tropical forest

Pure Bio-Strength: A wild-type, non-GMO microorganism in its most potent form

Microbial Synthesis: High-purity Violacein obtained through advanced precision fermentation

Italian Excellence: Reproduced in Italy in accordance with the highest biotechnological standards

Exclusive Value: A secure and high-potency solution, created through our exclusive innovative process

Action

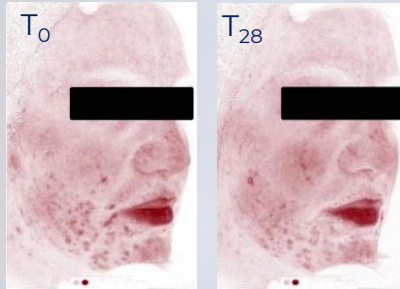

Amazia is backed by a comprehensive series of tests demonstrating multi-target efficacy.

Double action acne solution - *clinically proven*

In vivo visible reduction of blemishes and inflammatory acne lesions combined with antimicrobial activity against pro-acne bacteria.

STD2 Standard 2

RBX-red

30% Reduction of acne lesions

55% Redness improvement

85% of volunteers declare **improvement in skin imperfections**

Inflammation molecular control

Inhibition of TNF- α and neutralization of inflammatory triggers

38% TNF- α reduction

Autophagy stimulation

Stimulation of cellular Self-Recycling: reclaiming purity by clearing cellular waste

14% Autophagy stimulation

Targeted Viral Shield

Inhibition of Herpes activity, reduces the virus's potential to infect cells preserving skin integrity

57% Inhibition of Herpes

Antimicrobial & Protective Action

Selectively eliminates acne-causing bacteria without harming the skin's healthy microbiome

Antimicrobial & microbiome-friendly

Technical data

Appearance: viscous liquid

Color: dark violet - blue

INCI: Propylene glycol, Violacein

Solubility: glycols, water dispersible, emulsifiable

Suggested Use: 0,2-2%

Certifications: COSMOS approved, Natural Origin ISO16128 index 1

Compliance: Vegan suitable, Halal suitable, Biodegradable product
